

Jungle Beach is one of the most beautiful and peaceful beaches in Sri Lanka.

Located near the town of Unawatuna on the southern coast, it is surrounded by tropical forest and calm blue water. The beach attracts visitors who want a quieter and more natural experience compared with the busier tourist destinations of India, especially Goa and Kerala.

One major difference between these destinations is cost. Jungle Beach and much of Sri Lanka are generally affordable for travellers. Accommodation, food, and transport are often cheaper than in Goa, where prices rise during the tourist season because of heavy international tourism. Kerala can also be expensive in popular resort areas such as Kovalam and Alleppey, especially for luxury houseboats and spa holidays. Budget travellers usually find Sri Lanka offers better value overall.

Crowds are another important difference. Jungle Beach is smaller and less crowded than the busy beaches of Goa, which are famous for nightlife and large tourist numbers. Kerala is usually calmer than Goa, but many beaches and backwater

resorts still attract large numbers of visitors during holidays. Jungle Beach provides a more peaceful atmosphere, making it ideal for relaxation and nature lovers.

The friendliness of local people is highly praised in all three regions. Sri Lankans are known for their warm hospitality and helpful attitude toward tourists. People in Kerala are also friendly and proud of their culture, while Goa has a lively and welcoming international atmosphere because of its long tourism history.

Entertainment choices vary greatly. Goa is famous for beach parties, clubs, music festivals, and water sports. Kerala focuses more on cultural tourism, Ayurveda treatments, and nature tours. Jungle Beach offers simpler entertainment such

as swimming, snorkelling, hiking, and enjoying the natural beauty of the coastline.

In conclusion, Jungle Beach is quieter and more affordable than Goa and Kerala, offering visitors a peaceful tropical escape with natural charm and friendly hospitality.
